

Visit Symantec at  
Gitex 2014, Hall 6,  
Stand CLD-11

## Protect your Information Driven World

- Threats are always evolving, becoming more sophisticated and more targeted.
- Organizations are rapidly migrating to cloud-based applications and services.
- Software is redefining everything in our day-to-day lives.
- Connected devices are multiplying and diversifying.
- The power of generating information is in the hands of the user – people need help managing and defending networks now more than ever.

**SIMPLY:** We help make complex processes more streamlined and easy to manage.

**SAFELY:** We help keep information and identities secure, wherever and however they are used.

**QUICKLY:** We help facilitate immediate action when conditions change or threats emerge.

**When you can do it simply, safely, and quickly, you can do it all.**

Join us at Gitex and get a chance to interact with your peers, meet industry experts and have direct engagement with Symantec executives.
